Each bird seller is required to sign a comprehensive Code of Practice to ensure the ethical treatment of birds on site for sale. Veterinary checks are conducted to ensure that each bird's welfare is met as well as giving confidence to the buyer on the day. The Queensland Government's Department of Environment and Resource Management has granted a commercial wildlife permit for this event. This allows the Parrot Society of Australia (the organiser of the Queensland State Bird Fair) to issue Movement Advices for native birds sold.
