59						Darkwing ASV	Green or Blue Series						60
61						AOV Non Standardised	Green or Blue Series						62
63						Variable Class	As per ANBC Standard						64

* When placing entries please ensure you state whether Any Age, Old, Young, Nestfeather or Juvenile birds are being entered.

* Green Series includes Light, Dark, Olive and Grey Green.

* Blue Series includes Skyblue, Cobalt, Mauve, Violet and Grey.

* All classes are in accordance with the ANBC Standard.

* Multiple factor birds exist in many combinations. Therefore, if the schedule does not list a certain colour/variety combination then these birds will go into the AOV and Non Standardised classes. Refer ANBC Standard colour matrix for combinations.

* Any bird carrying multiple factors will only be eligible for awards which can be directly taken by the particular class in which they are entered.

* If you have a bird carrying multiple variety factors, please refer to the colour matrix from the ANBC Standard to see what class you can enter your bird in. For example, if you have a bird that is visually a Dominant Pied, Yellowface, Opaline, Cinnamon and Grey you would check to see the highest section number in the matrix and if all the other factors are included, then that is the class to enter the bird in. In the instance of the bird described, Dominant Pied (sect 16) is the highest, Yellowface (sect 14) is included, so is Opaline (sect 10), cinnamon (sect 8) and grey (sect 4) is included in yellowface, so therefore is included in this instance. You would enter this particular bird as a Dominant Pied either class 29 or 30 dependant whether a cock or hen.

* Variable class to be nominated on the Show Schedule by each club as required.

USE OF THIS STANDARD

1. For describing Standard Varieties.
2. As a guide and reference for Breeders and Judges.
3. As a guide and reference for exhibitors in ascertaining the classes in which to enter their exhibits.
4. As a guide for compiling show schedules.
5. Combinations of varieties accepted as standard are listed as groups under the primary variety in the combination. Such birds are described as:
(primary variety)
(other variety)
(colour).
 Example: Opaline Greywing Skyblue.

For combinations of more than two varieties to be accepted as standard, every combination of the varieties involved must appear in the groups.

Standard Primary Varieties	Section Number	Combinations of Sections 1 to 9 are not recognised.														
Normal Green Series	1															
Normal Blue Series	2															
Black Eyed Self	3															
Suffused Yellow/White	4															
Red Eyed Self	5															
Clearwing	6															
Greywing	7															
Cinnamonwing	8															
Spangle Double Factor	9															
		Groups for combinations.														
Opaline	10	3	4	6	7	8										
Clearbody	11							10								
Lacewing	12							10								
Fallow	13							7								
Yellow Faced Blue	14	3	4	5	6	7	8	9	10	11	12	13				
Spangle	15							7	8	10				13	14	
Dominant Pied	16							7	8	10				13	14	15
Danish Recessive Pied	17							7	8	10				13	14	15
Any Other Standard Variety (AOSV)	18															
Crested	19	Recognised in 1 to 18 and above groups														

Standard Primary Varieties Numbers 10 to 19 may combine with one or more than one of its group varieties, but will remain the primary variety for exhibition purposes. The largest number listed in the numerical list of sections and combinations is always the primary variety.

NOTE: The "Section Number" is the code number for the Standard Primary Variety it represents and includes any birds displaying the Violet Colour Intensity Modifier.
